Inspection Notes

Test the sanitizer concentration before using. Bleach sanitizer must be between 50ppm and 100ppm.

Do not store clean dishes/utensils on the right hand side at the 2 compartment sink. This side is the "dirty" side drainboard. Place all equipment/utensils/dishes on the left hand side drainboard for drying.

Repair the sprayer so it may be used without the rubberband holder. The rubberband is not approved to be used to repair the sprayer.
